## Dassault Systèmes Analysts Meeting Q2 2011

1

# Forward Looking Information

Statements herein that are not historical facts but express expectations or objectives for the future, including but not limited to statements regarding the Company's non-IFRS financial performance objectives, are forward-looking statements.

Such forward-looking statements are based on Dassault Systèmes management's current views and assumptions and involve known and unknown risks and uncertainties. Actual results or performances may differ materially from those in such statements due to a range of factors. The Company's current outlook for 2011 assumes, among other things, that there will be a slow economic recovery, but if global economic and business conditions improve more slowly than anticipated, or remain stable or further deteriorate, the Company's business results may not develop as currently anticipated and may remain below their earlier levels for an extended period of time. In this regard, the impact of the earthquake of March 11, 2011, in Japan is difficult to evaluate at this time, but may be expected to have a negative impact on the Japanese economic recovery. Furthermore, due to factors affecting sales of the Company's products and services, there may be a substantial time lag between an improvement in global economic and business conditions services.

In preparing such forward-looking statements, the Company has in particular assumed an average U.S. dollar to euro exchange rate of US\$1.43 per  $\in$ 1.00 and an average Japanese yen to euro exchange rate of JPY117 to  $\in$ 1.00 for 2011; however, currency values fluctuate, and the Company's results of operations may be significantly affected by changes in exchange rates. The Company's actual results or performance may also be materially negatively affected by changes in the current global economic context, difficulties or adverse changes affecting its partners or its relationships with its partners, changes in exchange rates, new product developments, and technological changes; errors or defects in its products; growth in market share by its competitors; and the realization of any risks related to the integration of any newly acquired company and internal reorganizations. Unfavorable changes in any of the above or other factors described in the Company's regulatory reports, including the 2010 *Document de référence*, as filed with the French *Autorité des marchés financiers* (AMF) on April 1, 2011, could materially affect the Company's financial position or results of operations.

# Forward Looking Information

Readers are cautioned that the supplemental non-IFRS information presented in this press release is subject to inherent limitations. It is not based on any comprehensive set of accounting rules or principles and should not be considered as a substitute for IFRS measurements. Also, the Company's supplemental non-IFRS financial information may not be comparable to similarly titled non-IFRS measures used by other companies. Further specific limitations for individual non-IFRS measures, and the reasons for presenting non-IFRS financial information, are set forth in the Company's annual report for the year ended December 31, 2010 included in the Company's 2010 *Document de référence* filed with the AMF on April 1, 2011.

In the tables accompanying this press release the Company sets forth its supplemental non-IFRS figures for revenue, operating income, operating margin, net income and diluted earnings per share, which exclude the effect of adjusting the carrying value of acquired companies' deferred revenue, stock-based compensation expense, the expenses for the amortization of acquired intangible assets, other income and expense, net, and one-time financial revenue gains, and the income tax effect of the non-IFRS adjustments. The tables also set forth the most comparable IFRS financial measure and reconciliations of this information with non-IFRS information.

When the Company believes it would be helpful for understanding trends in its business, the Company provides percentage increases or decreases in its revenue (in both IFRS as well as non-IFRS) to eliminate the effect of changes in currency values, particularly the U.S. dollar and the Japanese yen, relative to the euro. When trend information is expressed herein "in constant currencies", the results of the "current" period have first been recalculated using the average exchange rates of the comparable period in the preceding year, and then compared with the results of the comparable period in the preceding year.

## Broad-based Growth by Region (Non-IFRS\*)

#### Revenue Growth ex FX by Region

	Q2 11	YTD 11
Americas	+20%	+20%
Europe	+8%	+19%
Asia	+21%	+25%
Total	+15%	+21%

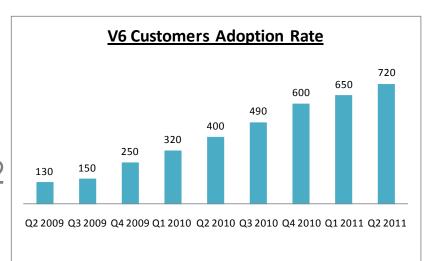

- Continued good growth dynamic in Americas
- Healthy growth in Europe considering one-time maintenance catch-up payments in Q2 2010
- Strong quarter in China and India

\* For a reconciliation to IFRS financial information, please refer to the tables in the appendix

www.3ds.com 1@ Dassault Systèmes 1 Q2 2011 Earnings Announcemen

- Continued good V6 adoption
- Driving ENOVIA new
   business, up 49% ex FX in Q2

- Increasing deal size
- Launching V6 Release 2012
- Launching V5 R21 which ensures V6 interoperability

### Cessna Selecting V6 Broad-based Growth

### Context

- Leading aerospace company, subsidiary of Textron
- Headquartered in US
- 2010 revenue: ~\$2.6bn
- Challenge
  - Introduce products faster while spending less money to design and build them
  - Reduce time to first article and certification
- **Solution** 
  - Selecting V6
  - Migrating to CATIA V6 and ENOVIA V6
  - Adding DELMIA and 3DVIA

## Benetton Group Selecting V6

Broad-based Growth

- Context:
  - Leading apparel company 2010 revenue: ~€2bn
- Challenge
  - Continue leading quality fashion, while leveraging global sourcing
  - Create a global platform to improve eco-design
- Solution
  - Selecting ENOVIA V6 and migrating legacy PDM to ENOVIA V6

UNITED COLORS OF BENETTON.

### Skanska Successfully Implementing V6 Broad-based Growth

### Context:

- Leading construction company Headquartered in Sweden
- 2010 revenue: €12bn ~ 50,000 employees worldwide
- Challenge
  - Accurately forecast costs (fixed-price & one-of-a-kind)
  - Zero waste
- Solution
  - Skanska Finland selected ENOVIA V6: ~1,200 users
  - Cost forecasts completed in half the time previously required
  - Number of unprofitable projects decreased dramatically

SKANSKA

# La Poste Selecting EXALEAD Broad-based Growth

#### Context:

- Multi-business group: mail, parcels-express, banking, La Poste retail outlets
- 2009 revenue: €20bn ~ 280,000 employees
- Challenge
  - Increase revenue from its B2B Services
  - Equip sales with customers information splintered across multiple CRM systems

#### Solution

- La Poste chose to unify access to data from multiple CRM systems with Exalead rather than pursuing data integration
- Boosted telesales efficiency by 20%

## Dassault Aviation Selecting EXALEAD

- Broad-based Growth
- Context:
  - Leading aerospace company 2010 revenue: €4bn
- Challenge
  - Link several hundred thousand records contained in different databases to manage airplane maintenance
- Solution
  - Developed in less than a month, a new application based on EXALEAD allowing instant post-flight access to all the maintenance data
  - Developing new applications, such as establishing and operating worldwide stocks of Falcon spare parts

### Well-balanced, Broad-based Growth

Product lines, sales channels, regions

### Geographic Diversification

Introduction of First 3DS Solutions on the Cloud

www.3ds.com 1 C Dassault Systèmes 1 Q2 2011 Earnings Announcemen

# High Growth Countries Delivering Strong Results Geographic Diversification

(India, Asean, Australia, New Zealand) **Great China** (China, Hong-Kong, Taiwan)

# Change in Net Financial Position – 2Q11

Note: Net financial position is defined as Cash and Cash Equivalents + Short Term Investments – Long-term Debt

# Business Model for 3DS Solutions on the Cloud

### Physical infrastructure

- Partnership with Amazon Web Services (AWS)
- Minority investment (20%) in Outscale
- No short-term capex impact
- Business model
  - Solution on the cloud
    - Includes hardware and middleware in addition to software applications
    - Positive impact on revenue over time
  - **3DStore online involving VARs**

#### Dassault Systèmes Goes Cloud with Amazon Web Services

Introducing cloud-based applications for enterprise solutions and open Version 6 platform for application developers

VELIZY-VILLACOUBLAY, France, and BEATTLE, UBA - June 28, 2011 - <u>Descuit</u> <u>Sustaines</u> (3DB) Euronext Parts: #13055, DBYPA), a world leader in 3D and Product Uflergide Management FLM, Soutors, and Amazon Web Services (WNB), an Amazon.com company, INABCAC: MUZN), the leader in destic cloud inflastructure, are world to tgether to enable companies of all sizes to perstained quickty with 3D Version 6 solutions on AVRB. Today's announcement answers the growing demand by organizations to leverage cloud technologies to design, melinelin, and access 3D, PLM and solutions expretences in non fexible and efficient ways.

Dessault Systèmes provides a unique platform to run litetike experiences, reveal smart information, enaite social innovation, imagine with 3D and structure companies' assets and operations to securate toexellence. 3DE experience platform is powered by Vestion 6 technologies, the fourtiention for all 3DE parents (CATA, Boldivicks, BMULA, DELMA, ENOVA, 3DVIA, Exelest, 3DB/VM, 3DE experience open platform delives simple mechanisms to configure on-the-fly, extend with missi-rup capabilities, and develop new applications and experiences.

Starting today, 308 offes Vestion 6 solutions in 308 experiences solu-(summ\_Jos.com#308;bb) and on AVI8 b the global merket, providing a preconfigured environment for comparies b un 30, PLM and theilke experience. With Vestion 6 online solutions, users can get what they need, when they need it. Offered as a fertile subcription model, without upthort in-estimates in additional inflamitudue, long-term volume commitments or administrative burden, Vestion 6 online solutions are designed to adapt to the needs of ognatizations or projects of any scale.

Dessault Bystèmes is leveraging multiple AWB services to power Version 6 platform, providing the following resources:

- High performance and highly available compute recourses: Dassault systèmes is utilizing the Amezon Baset Compute Doud (Amezon BC2) to provide discete compute environments for each customer.
- Geographic reach: Dessaut Systèmes leverages the AVAB global footprint to provide the best experience for heir customers, regardless of heir physical location. By leveraging AVAB' Regions, Dessault Bystèmes can ensue thet data required (s.g.lag.within e geographic boundary remains so.
- Storage of easy-to-access design content: Using Amazon Elestic Block Store (Amazon EBS) and Amazon Simple Storage Service (Amazon S3), Dessault

Service Gross margin	(15.9%)		(15.7%)	8.7%		9.2%				

In the reconciliation schedule above, (i) all adjustments to IFRS revenue data reflect the exclusion of the deferred revenue adjustment of acquired companies; (ii) adjustments to IFRS operating expenses data reflect the exclusion of the amortization of acquired intangibles, share based compensation expense, and other operating income and expense, (iii) adjustments to IFRS financial revenue and other, net reflect the exclusion of certain one-time financial gains in 2011, and (iv) all adjustments to IFRS income data reflect the combined effect of these adjustments, plus with respect to net income and diluted net income per share, the income tax effect of the non IFRS adjustments.

 The non-IFRS percentage increase (decrease) compares non-IFRS measures for the two different periods. In the event there is a non-IFRS adjustment to the relevant measure for only one of the periods under comparison, the non-IFRS increase (decrease) compares the non-IFRS measure to the relevant IFRS measure.
